One Hour Later

I hid all of the weapons
And put a sleeping spell on him. So..

I have some work
I'll be back at night.

When the sun goes down
hurry up and go back home.

He's asleep?...

He fell asleep here?
Isn't he worried that the sun might burn him?

sigh oh well

I'll leave some food for him.

Just in case he wakes up and hurt other people.
